Application Note – Nucleic Acid Extraction

Find a perfect match for your nucleic acid extraction needs!

		Application areas															Features						
		Agarose Gel	Bacterial culture	Blood	Buffy coats	Cell culture	Dye Terminator Removal	DNA sequencing / SNP Analytics	Enzymatic reactions / PCR	Formalin / Paraffin embedded tissue	Hair / Insects	Pyhsiolocigal fluids	Plasma / Serum	Plasmid vectors	Solid tissue	Semen	Yeast	Homogenisation beads	Endotoxin-free	Low elution volume	Automatic liquid handling / High throughput	DNase I included	Concentrator	Cleaner ????
