according to 1907/2006/EG, Article 31

# GENAXXON

b i o s c i e n c e

Product number : M3148

Product name :

Tetracycline hydrochloride

## 1. Identification of the substance/preparation and of the company

### Product identifier

**Product Name:** Tetracycline hydrochloride

**Catalogue Number:** M3148

**CAS Number:** 64-75-5

**EC Number:** 200-593-8

### Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

### Application of the substance/the preparation

Laboratory chemical

Chemical analytics

Antibiotic for research usage

### Details of the supplier of the safety data sheet

#### Manufacturer /Supplier:

Genaxxon bioscience GmbH, Söflinger Str. 70, 89077 Ulm/Germany.

Tel.: +49 (0)731 3608 123, info@genaxxon.com

**Further information available from:** General Management

#### Emergency telephone number:

Poison Information Centre Mainz, Germany, Tel.: +49 (0)6131 19240 / 24 h

**NOTE:** If this product is a kit or supplied with more than one material, please refer to the MSDS for each component for hazard information.

### Product Use:

This products are for laboratory research use only and are not intended for human or animal diagnostics, therapeutics or other clinical uses.

## 2. Hazardous identification

### Classification of the substance/preparation/mixture

#### Classification according to Regulation (EC) No 1272/2008

GHS07

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2 H319 Causes serious eye irritation.

STOT SE 3 H335 May cause respiratory irritation.

#### Classification according to European Directive 67/548/EEC or Directive 1999/45/EC.

Xi; Irritant

R36/37/38: Irritating to eyes, respiratory system and skin.

**Information concerning particular hazards for human and environment:** Not applicable

### Label elements

#### Labelling according to Regulation (EC) No 1272/2008

The product is classified and labeled according to the CLP regulation.

#### Hazard pictograms

GHS07

Signal word: **Warning**

#### Hazard-determining components of labelling:

tetracycline hydrochloride

Tetracycline hydrochloride

Contd. of page 1

## Hazard statements

H315 Causes skin irritation

H319 Causes serious eye irritation

H335 May cause respiratory irritation.

## Precautionary statements

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P264 Wash ... thoroughly after handling.

P302+P352: IF ON SKIN: Wash with plenty of soap and water.

P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing

## Other hazards

### Result of PBT and vPvB assessment

**PBT:** not applicable

**vPvB:** not applicable

## 3. Composition/information on ingredients

### Chemical characterisation: Substances

CAS-No.: Description

64-75-5 tetracycline hydrochloride

Identification number(s)

EC-number: 200-593-8

## 4. First-aid measures

### Description of first aid measures

#### General information:

Immediately remove any clothing soiled by the product.

#### After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for transportation.

If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

#### After skin contact:

Immediately remove any clothing soiled by the product.

Call a doctor immediately.

#### After eye contact:

Rinse opened eye for several minutes under running water. Then call a doctor.

#### After swallowing:

Rinse out mouth. Make victim drink water (maximum of 2 drinking glasses).

Call a doctor immediately.

#### Information for doctor:

**Most important symptoms and effects, both acute and delayed:** No further relevant information available.

**Indication of any immediate medical attention and special treatment needed:** No further relevant information available.

## 5. Fire-fighting measures

### Extinguishing media

#### Suitable extinguishing agents:

Water Spray. Carbon Dioxide. Dry chemical powder, or appropriate foam. Fight larger fires with water spray or alcohol resistant foam.

#### Special hazards arising from the substance or mixture:

Formation of toxic gases is possible during heating or in case of fire.

In case of a fire, the following can be released:

Carbon oxides (CO, CO<sub>2</sub>)

Nitrogen oxides (NO<sub>x</sub>),

Hydrogen chloride (HCl)

#### Advice for fire fighters:

#### Protective equipment:

GENAXXON

b i o s c i e n c e

Product number : M3148

Product name :

Tetracycline hydrochloride

Contd. of page 2

Wear self-contained respiratory protective device.

## Additional information:

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

Contain escaping vapours with water.

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Avoid formation of dust.

Do not inhale dust.

Avoid substance contact.

Ensure adequate ventilation.

Use respiratory protective device against the effects of fumes/dust/aerosol.

**Environmental precautions:** Do not allow product to enter sewage system, surface or ground water.

Discharge into the environment must be avoided.

### Methods and materials for containment and cleaning up:

Pick up mechanically.

Avoid generation of dust.

Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

Clean up affected area.

### Reference to other sections

See Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

**Additional information:** None

## 7. Handling and storage

### Handling

**Precautions for safe handling:** No special measures required.

### Information about fire – and explosion protection:

Keep respiratory protective device available.

### Conditions for safe storage, including any incompatibilities

#### Storage:

**Requirements to be met by storerooms and receptacles:** No special requirements.

**Information about storage in one common storage facility:** No special measures required.

#### Further information about storage conditions:

Store in a well-ventilated place.

Keep container tightly sealed.

**Recommended storage temperature:** 15 – 25°C

**Storage class:** 10-13

**Specific end use(s):** No further relevant information available.

## 8. Exposure controls/personal protection

**Additional information about design of technical facilities:** No further data; see item 7.

### Control parameters

#### Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

**Additional information:** The lists valid during the making were used as basis.

### Exposure controls:

#### Personal protective equipment:

#### General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

Avoid contact with eyes and skin.

# GENAXXON

b i o s c i e n c e

Product number : M3148

Product name :

Tetracycline hydrochloride

Contd. of page 3

Store protective clothing separately.  
Vacuum clean contaminated clothing. Do not blow or brush off contamination.  
Immediately remove all soiled and contaminated clothing.

### Respiratory protection:

Required when dusts are generated.

Filter: P1 (EN 149).

### Protection of hands:

Protective gloves (EN 374)

The glove material has to be impermeable and resist ant to the product/ the substance/ the preparation.  
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

### Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

### Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

### For the permanent contact gloves made of the following materials are suitable:

Nitrile rubber, NBR

Recommended thickness of the material:  $\geq 0.11$  mm

Value for permeation: Level:  $>480$  min.

### As protection from splashes gloves made of the following materials are suitable:

Nitrile rubber, NBR

Recommended thickness of the material:  $\geq 0.11$  mm

Value for the permeation: Level  $\geq 480$  min.

### Eye/face protection: Safety glasses

Safety glasses (EN 166)

### Body protection:

Use protective suit.

Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled.

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

#### General Information

#### Appearance

**Form:** Crystalline Powder

**Colour:** Yellow

**Odour:** Odourless

**pH value at 20°C:** 2.0 – 3.0 (1% in H<sub>2</sub>O)

#### Change in conditions

**Melting point/Melting range:** ca. 215°C – 220°C

**Boiling point/Boiling range:** Not determined

**Flash point:** Not applicable

**Flammability (solid, gaseous):** Product is not flammable

**Decomposition temperature:** Not determined

**Self-ignition:** Product is not self-igniting

**Danger of explosion:** Product does not present an explosion hazard

## Explosion limits:

**Lower:** Not determined

**Upper:** Not determined

**Vapour pressure:** Not applicable

**Density (20°C):** Not determined

**Bulk density at 20°C:** Not determined

## Solubility in / Miscibility with

**(water, 25°C):** Not determined

**Organic solvents:** No data available

**Partition coefficient (n-octanol/water):** Not determined

## Viscosity:

**Dynamic:** Not applicable

**Kinematic:** Not applicable

## Solvent content:

**Organic solvents:** 0.0%

**VOC (EC)** 0.00%

**Other information:** No further relevant information available.

## 10. Stability and reactivity

### Reactivity

#### Chemical stability

**Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.

**Possibility of hazardous reactions:** No dangerous reactions known.

**Conditions to avoid:** No further relevant information available.

**Incompatible materials:** strong oxidants.

**Hazardous decomposition products:** In the event of fire: See chapter 5 of this data sheet.

## 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity:

#### LD50/LC50 values relevant for classification

64-75-5 tetracycline hydrochloride

Oral	LD50	6443mg/kg (rat)
------	------	-----------------

#### Primary irritant effect

**on the skin:** Irritant to skin and mucous membranes.

**on the eye:** Irritant effect.

**After inhalation:** Irritant to skin and mucous membranes.

**Sensitization:** No sensitizing effect known.

**Other information (about experimental toxicology):** ---

#### Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

#### CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

The substance is not subject to classification according to the latest version of the EU lists.

**To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.**

The product should be treated with usual precautions while handling chemicals.

## 12. Ecological Information

### Toxicity

**Acquatic toxicity:** No further relevant information available

**Persistence and degradability:** No further relevant information available.
